

Rembrandt XP Plex™

RF detection system

The Rembrandt XP Plex is a modern antenna solution that offers an excellent mix of protection and design for any retail décor.

The combination of an anodized aluminum frame and scratch resistant clear acrylic panel, delivers durability and a pleasing, sophisticated antenna design.

A bidirectional people counter can be incorporated in the Rembrandt XP Plex antenna; this counter is direction sensitive and users can choose which count direction is displayed.

Remote maintenance is possible in combination with the USB/Ethernet tool.

Specifications

Performance: Omni directional detection

- Up to 2.00 meter for hard tags
- Up to 1.80 meter for sticker tags

Hardware accessories:

- USB to Can bridge (standard USB and Ethernet cable included for configuration on PC or laptop)
- USB / Ethernet to Can bridge (standard USB and Ethernet cable included, for configuration on PC, laptop, through internet or internal network)
- Bidirectional people counter with resettable display, battery powered.
- CSU
- Removable antenna base

RF **software** features consist of:

- slaving option
- buzzer time
- buzzer tune
- relay output
- lamp time
- lamp intensity
- lamp frequency
- alarm counters readable through network
- people counters readable through network
- restart counter readable through network
- log file readable through network

Antenna dimensions:

345 x 36 x 1600 mm. (w x d x h)

Weight: 10,30 kg.

Material: Anodized aluminum mounting frame & scratch resistant clear acrylic panel
